

Chandan A N(Fresher)

As a Coder, I have found my drive and passion towards my work and that makes me even more excited every day to wake up and take up on new challenges. To work in a conducive environment and challenging atmosphere.

PROJECTS

Cottage Works

"Cottage Works" is a web application designed to support home-based entrepreneurs, especially women, by connecting them with consumers and investors. This platform allows homepreneurs to showcase and sell handcrafted goods, grow their businesses from home, and manage costs effectively.

Technology Used: ReactJS, JavaScript, MongoDB, HTML, CSS.

Vehicle Ownership Transfer With Criminal case Assurance

Developed a decentralized vehicle passport framework using AWS S3 to automate vehicle ownership transfers and fitness certificate issuance. Integrated RTO and Police department to ensure efficiency, transparency, and security.

Technology Used: C#, ADO.NET, MySql.

Medicinal Plant Identification

Developed a web application that identifies medicinal plants by processing images through trained datasets. The application provides the plant's identity, associated disease treatments, and practical uses.

Technology Used: Python, Jupyter Notebook, Flask Framework.
